

**WITH THE INTRODUCTION OF THE NEW DUAL POWERLAB 8X2
REVOLECTRIX RE-ACQUIRES THE TOP OF THE FOOD CHAIN**

**2688W TOTAL
OUTPUT POWER**

MAJOR FEATURES/SPECS:

PowerLab Intuitive Interface

PowerLab Reliability and Reputation

Dual Independent Channel Operation

1344W Max Power Output per channel (2688W total) using 40V Input

Extended Input Voltage Range (10V-48VDC)

Independent Input Cables means you can power each channel with separate power supplies to achieve max power from each channel even when using 110VAC, 15A AC circuits

The most powerful and intuitive PC-based Charge Control Software (CCS) Solution available allows for automatic and fool-proof software and firmware updates, complete control of the unit from a laptop or PC, graphing, and much more!
